UPDATE

November 7, 2018

WATER Service Replacement **Mechanic St** (From Chesnut St to Oak St)

The Foxborough Water Department has been working with C. Naughton Corp to replace water services on Mechanic St. The service will be replaced from the water main to curb stop. Work began Tuesday October 9th and is approximately 50% complete.

This is a major project for our department as it will move all water services to the larger, newer 20" water main on the even side of the street. The project will be disruptive to traffic, so please plan accordingly. The detour that begins at 9:00am each day has now changed. The direction of traffic is now from Chestnut St towards Rt. 95. Detour signs are in place for traffic heading towards the common. **Please use Oak St to Cocasset St to Chestnut St.**

One of the remaining contract items is to connect the neighborhoods that abut Mechanic St to the 20" main described above. For the Thurston, Lewis and Wayne Drive neighborhoods this will result in a shutdown of the water system. The contractor will work to minimize the duration of the shutdown and restore water as quickly as possible, within the same day. When we know the schedule of these shutdowns we will notify the residents.

We apologize for any inconvenience this may cause, and thank you for your patience. Questions may be directed to the Water Department at (508) 543-1209.
